Features Designed to Enhance Efficiency

Room Key Integration

To verify meal eligibility, simply scan the guest's room key—fast, secure, and reliable.

No More Paper Hassles

Forget distributing and collecting paper meal vouchers. Our solution digitizes the entire process, saving time and reducing errors.

Real-Time Meal Tracking

Monitor each meal's consumption in real-time, providing complete visibility and control. Effortlessly manage timelines and avoid any confusion with consumption limits.

Enhanced Guest Experience

Let your guests enjoy their meals without delays. With instant verification, your F&B team can focus on creating memorable dining experiences.

Meal Plan Management

Introducing forotel F&B Hostess.

Streamlining Meal Plan Management for F&B Outlets.

www.forotel.com

Why forotel F&B Hostess?

Increased Efficiency

Streamline meal plan management, reduce manual tasks, and increase overall operational efficiency.

Accurate Consumption Monitoring

Real-time insights and detailed tracking of each meal ensure better planning and inventory control.

Enhanced Guest Satisfaction

Fast and paperless verification improves guests' experiences and eliminates unnecessary waiting times.

Seamless F&B Hostess

forotel F&B Hostess offers a streamlined way to manage guests' meal plans, eliminating the need for cumbersome paperwork at the entrance.

The application instantly identifies guests by recognizing room key, ensuring a smooth and stress-free experience for staff and patrons.

Experience the Future of Meal Plan Management

Effortless Implementation

Designed to integrate seamlessly with OPERA PMS and OPERA Cloud, forotel F&B Hostess leverages Oracle Hospitality solutions for a cohesive and consistent experience across all operations.
